

STORAGE

Neo is a battery that powers your home and business using renewable energy.

The Neo battery stores renewable energy and powers your home and business using AC high voltage and DC low voltage outputs.

Benefits

The only all-in-one box solution

Charge at lower cost times & use at higher/peak periods

Provides Energy Independence

1 Neo unit can cut your power bill in half - 2 units will power an average home (with solar)

HOW NEO WORKS

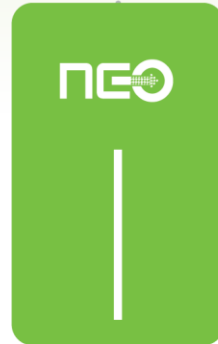

DC Power

Charge NEO from a renewable energy source or from the grid

AC Power

Energy is stored for future use
